## **Instituto Politécnico de Lisboa - Erasmus+ Policy Statement**

(Overall Strategy)

“The international strategy of IPL takes different aspects into consideration. On choosing their partnerships, the Schools previously assess the scientific and curricular comparability between course units and their syllabus of home and prospective host institutions. The suggestions made by the Portuguese National Agency-ANPROALV are also considered in the process of selecting the institutions’ partners. IPL will pursue its objectives of establishment or increase of partnership with International and national higher education Institutions, private and public Institutions, public and non-governmental Institutions, public enterprises which cooperates towards the development of the researching activities and funding the community and screening activities developing skills and competencies of the students and researching as well; CPLP projects and RETS for students and teaching staff mobility activities improving the education quality within the cooperation in pointing out the guidelines for the implementation of 1<sup>st</sup> cycle degrees in Angola and Timor and also in the pedagogical cooperation with Mozambique, Angola and Timor.

Promoting SMS and SMP activities in partner institutions assisting our graduates in Portugal and European countries through the Leonardo da Vinci – mobility programmes.”
